

St. Peter's High School

Communications

Parents:

Frequently coaches will use text messaging and email to contact their team members. These communication methods save time and provide all players with the same information.

If for any reason you do not want a coach to text or email your child, you will need to provide the coach with your text number and email address. The coach will then pass all messages to your student/athlete through you.

I give my permission to contact my child via text and/or email.
